DETAILED ACTION

Allowable Subject Matter

1. Claims 8 and 16 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or suggest one or more of the limitations found in independent claim 8. U.S. Patent No. 6,407,715 to Chen, U.S. Patent No. 6,515,630 to Honda, and U.S. Patent No. 6,618,020 to Wang et al. all teach similar systems to that of the present application. However, with respect to independent claim 8, Chen, Honda, and Wang all fail to teach or suggest the combination of a microstrip feed line formed on the top of the dielectric substrate, and electrically isolated from the ground surface on the top of the dielectric substrate, and a connection unit connecting the microstrip feed line and the ground surface on the bottom of the dielectric substrate, wherein a portion of the microstrip feed line is overlapped with the slots formed on the bottom of the dielectric substrate. Therefore, independent claim 8, as well as dependent claim 16, is allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
